ASC Clubhouse Disabled Access

There are 12 steps up from the street level into the clubhouse bar/music venue.

For visitors who are unable to walk up or down the steps, there is access to the rear of the building, which can be used to access the bar/music venue. The access is uneven and would probably require assistance.

There is a ramp at the rear door and the bar/music venue is flat. Wheelchair users will need assistance using the ramp.

The toilets in the clubhouse are on a level with the bar/music venue, but are standard door width, limiting wheelchair access. There is no disabled toilet facility within the club.

Vehicle access can be gained by driving up Church Hill (behind the Albion pub) and down the unmade lane on the left, at the corner of Church Hill back down toward the promenade. A car can then stop to give access to the rear gates at the side of the club house. The car can't remain there, as access is required, but can be driven down the track and on to the promenade.

Please be aware that some clubhouse events are standing or have limited unreserved seating.

Please contact us in advance of your visit if you require any further information on disabled access to the club
